

Metal & Post Frame Building Insulation

(2500 Colored Series)

rFOIL™ Applications:

- Pre-engineered steel buildings
- Post frame / pole barns
- Agricultural buildings
- Residential metal roofs
- Mini storage
- Livestock confinement

rFOIL™ Benefits:

- Blocks 96% of radiant heat transfer
- Prevents interior condensation
- Class 1 / Class A fire-rated (ASTM E84-09)
- Puncture and tear-resistant
- Unaffected by humidity
- Will not promote mold and mildew
- Safe, non-toxic and non-carcinogenic
- Easy to handle and install
- Various tab options
- UV-resistant

New Custom Colors Available

rFOIL™ reflective Insulation is a single or double layer of polyethylene bubbles bonded to and sandwiched between a radiant barrier metalized foil and a colored polyethylene sheet.

rFOIL™ is specifically designed to control heat gain or loss, and prevent interior condensation, in all types of metal and metal-clad buildings.
